fraxion

Fraxion has been providing procurement solutions for over twenty years and we share our domain experience by offering excellence in solutions that enable comprehensive spend management capabilities.

With offices in Seattle and Cape Town, we offer global support to an international cross-industry client base.

.

Spend smarter and save

With Fraxion and Dynamics GP

Proactively manage your spend and ensure that you're purchasing business supplies at the best price.

fraxion

Microsoft Dynamics GP

Manage your business spend from end-to-end, with ease.

Automate and accelerate your processes, ensure accuracy and take the risk out of your procure-to-pay workflow.

What is PunchOut

A method of purchasing from a supplier’s online portal from within a buyer's eProcurement application.

Easy access to online stores while complying with your procurement policies and controls, configured in Fraxion

PunchOut brings the ease and cost saving benefits of shopping from your strategic partner's online store to Fraxion.

- PunchOut makes it easy for users to shop for business supplies online, within the budget and approval parameters configured in Fraxion.
- Punch out to online stores directly from Fraxion.
- Fraxion's catalog integration gives you on-demand access to detailed product descriptions, business-only pricing, discounts, purchase terms and stock availability.

PunchOut demo

Connect

Extend your Microsoft Dynamics GP solution, with Fraxion. IWS and Fraxion Connect's suite of services and tools provide connection points for seamless integration.

No maintenance

All catalogs are maintained by vendors, with any changes to item availability, current discounts, related shipping costs and pricing made visible to users in real time.

Precise product information

Buyers within Fraxion can take advantage of more accurate item details and real-time inventory.

e-Commerce shopping experience

Access vendor catalogs directly from Fraxion. Enjoy an easy and familiar online shopping experience within Fraxion's eProcurement interface.

Business-price savings

Qualify for business-only pricing and volume discounts.

Increased productivity

PunchOut enables more efficient order processing, through online automation that saves time and streamlines the purchasing cycle.

Supply chain efficiency

Gain integrated access to millions of products. Simplify the sourcing process and eliminate the time and effort that would be spent browsing numerous supplier sites for a wide range of items and stock availability.

Spend control

Simplify purchasing processes without losing financial control. Eliminate rogue spending by leveraging established approval workflows in Fraxion.

Fast convenient shipping

Shop, checkout and take advantage of fulfillment and shipping processes.

With PunchOut integration, your spend with strategic vendors is always:
