

Learn about recent COVID-19 legislative changes and gain insight into employer compliance requirements and how to manage them in Dynamics GP

Your people. Our priority.®

Key Takeaways

Learn more at
www.netstock.co

- Only **one third** of businesses with inventory use analytics for replenishment.
- **Almost half** of inventory planners think the worst is yet to come from Covid-19 supply chain disruptions.
- Among distributors and manufacturers, **60% of businesses** surveyed report the need to reduce inventory carrying costs.

INVENTORY HEALTH CHECK

Do you know what's going on with your inventory?

If you rely on your ERP or spreadsheets to manage your inventory levels, you're leaving profit on the warehouse floor.

Email russ@netstock.co to learn more about NETSTOCK's **inventory health check** to discover how stock-outs and excess stock are hurting your bottom line, and to find out more about our **90-day money back guarantee**.

What are your pricing pains?

- Date-driven
- Rebates
- Pricing attributes and adjustments
- Unit of measure and rounding
